primary studies - published RCT

High compared with standard dose lipase pancreatic supplement.

Code: PM2647033 **Year:** 1989 **Date:** 1989 **Author:** Robinson PJ

Study design (if review, criteria of inclusion for studies)

randomised crossover trial

Interventions

The number of capsules of Cotazym-S-Forte (10,000 BP units of lipase activity per capsule) administered was half the usual number of Pancrease capsules (5000 BP units lipase per capsule)

Outcome measures

fat absorption

Main results

Cotazym-S-Fortewas associated with the same degree of fat absorption as Pancrease.
